Rationale for Recommendation

- The petition is consistent with the mixed-use recommendation for the site.

PLANNING STAFF REVIEW

- **Proposed Request Details**

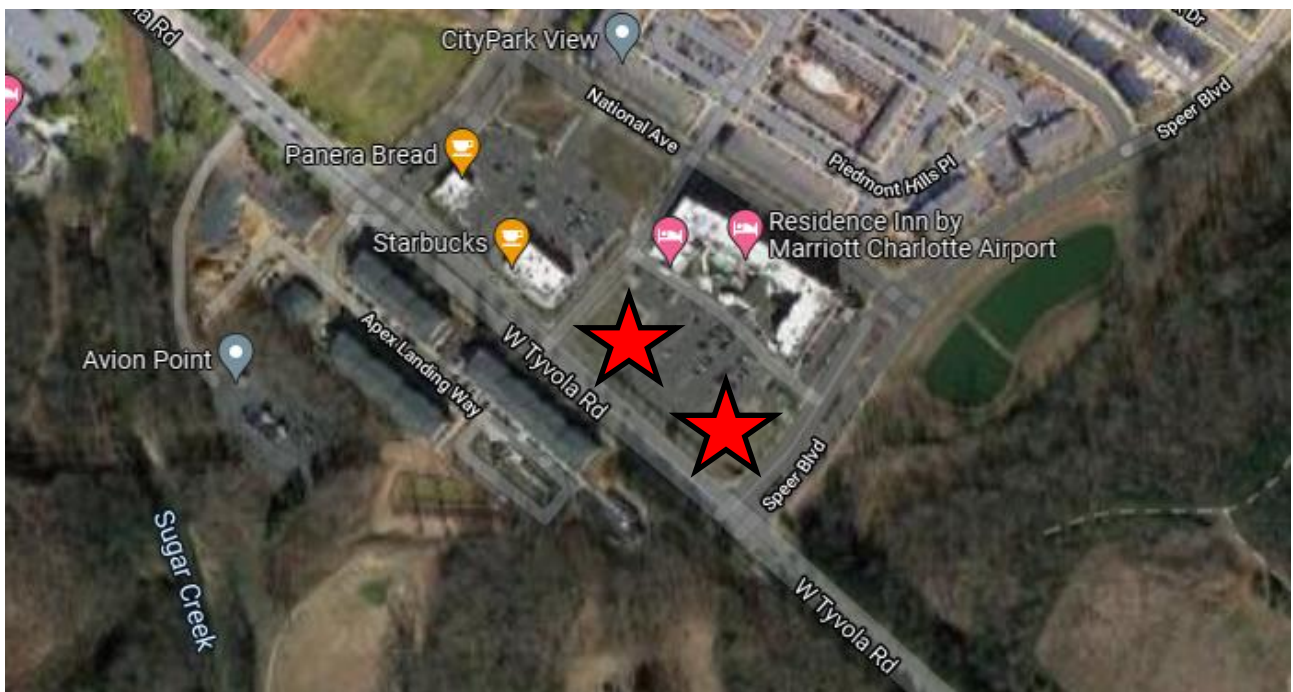

The site plan accompanying this petition contains the following provisions:

- Allows up to 12,000 square feet of commercial uses (entitled by previous rezoning).
- Permits an additional drive-through service window as an accessory to an eating, drinking, and entertainment establishment. A total of two drive-through service windows will be permitted on the site.
- Permits maneuvering between the street and the buildings for the two drive-through service windows.
- Prohibits the following uses: convenience stores with gasoline sales, car washes, and automotive service stations.
- Requires buildings to be a minimum height of 22 feet.
- Commits to architectural standards pertaining to street facing activation, blank wall limitations, pedestrian connections, and building articulation.
- Commits to screening of drive-through service lanes from view of public streets.

- **Existing Zoning and Land Use**

The site is partially developed with surface parking and is part of the larger City Park mixed-use development approved via rezoning petition 2007-082 for MUDD-O (mixed use development, optional), which allowed the redevelopment of approximately 160 acres occupied by the old Charlotte Coliseum. The site was subsequently rezoned via petition 2018-001 to permit one drive-through service window as an accessory use to 12,000 square feet of retail uses.

The site, marked by red stars, is part of the City Park development.

The property to the north of the site is developed with a hotel.

The property to the east of the site across Speer Boulevard is city owned and vacant, wooded land.

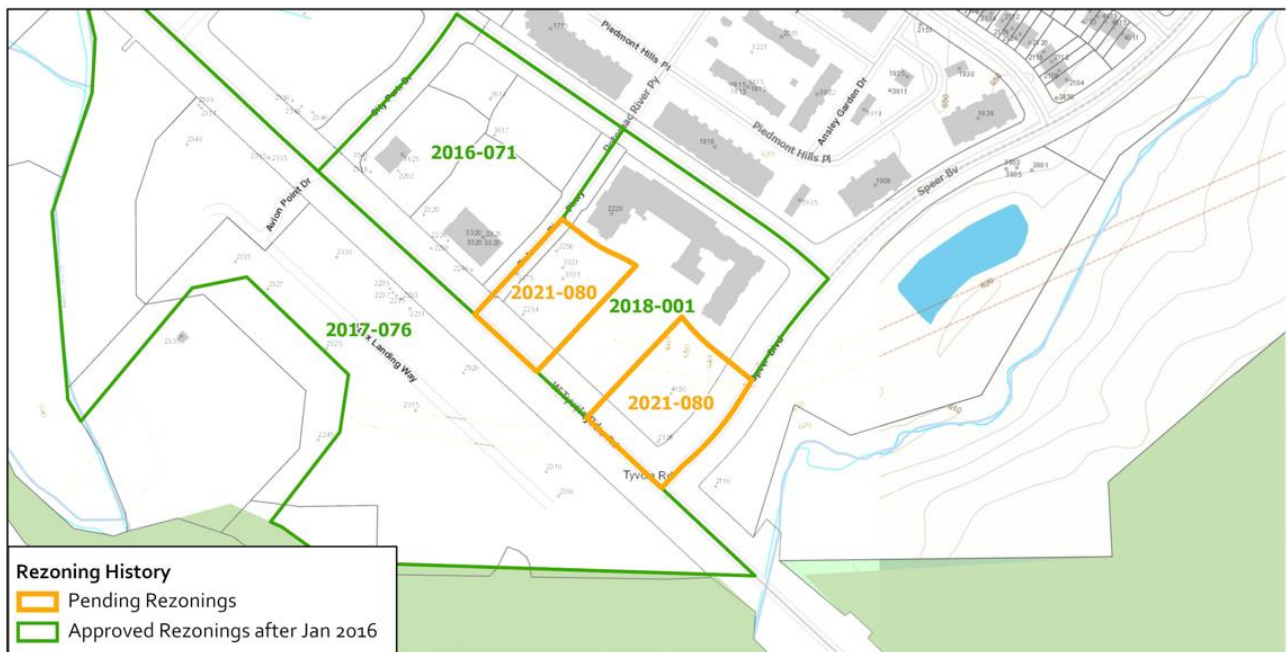

The property to the south of the site across Tyvola Road was recently developed with multifamily residential uses.

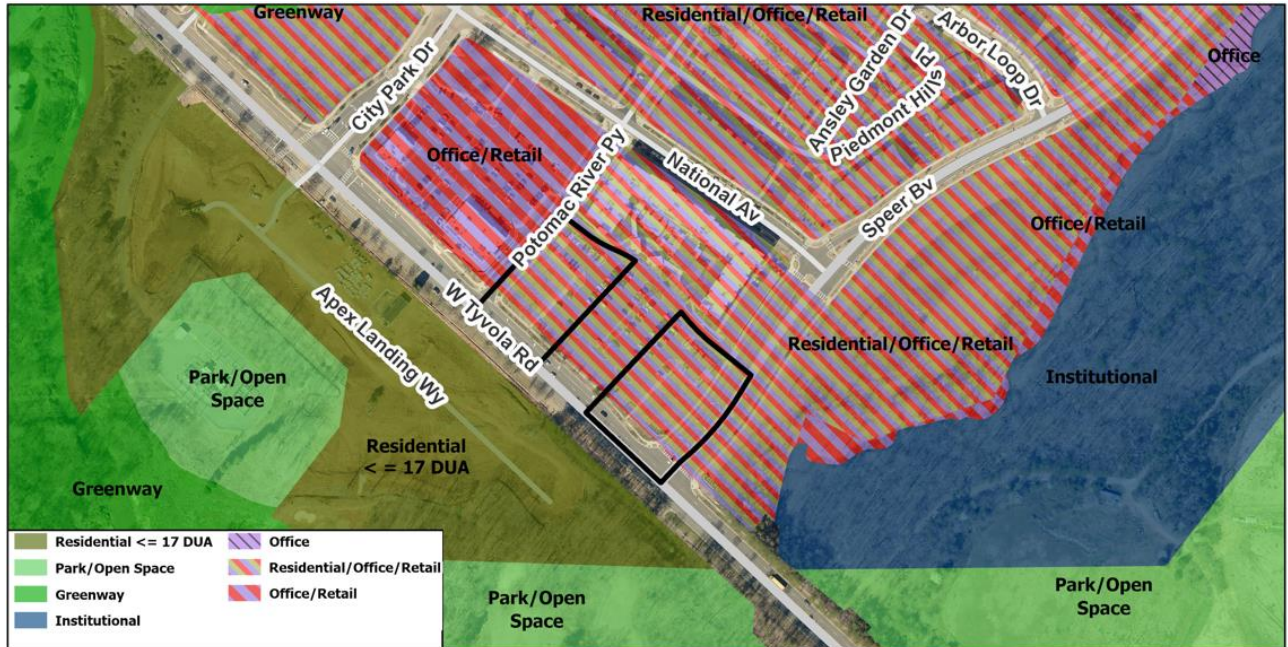

The property to the west of the site across Potomac River Parkway is developed with commercial uses, including two drive-through service windows.
