STAFF RECOMMENDATION

Staff recommends approval of this petition.

Plan Consistency

The petition is **inconsistent** with the *Woodlawn Transit Station Area Plan* (2008) recommendation for office and retail uses for this site.

Rationale for Recommendation

- The site is within a ½-mile walk of the Woodlawn Station.
- The TOD-CC district may be applied to parcels within a ½-mile walking distance of an existing rapid station, or within ½ mile walking distance of an existing streetcar stop.
- The petition would allow for the redevelopment of the site to transit supportive uses.
- The site is in close proximity to other areas in transit oriented development zoning districts.
- The site is located in an area of moderate intensity development, appropriate for the application of the TOD-CC zoning district.

- TOD standards include requirements for appropriate streetscape treatment, building setbacks, street-facing building walls, entrances, and screening.

The approval of this petition will revise the adopted future land use as specified by the *Woodlawn Station Area Plan* (2008), from office and retail uses to transit oriented development for the site.
