**Traffic Signals and Hardware**

**Action:**

- A. Approve a unit price contract to the lowest responsive bidder Mobotrex Inc. for the purchase of traffic signal replacement parts and repairs for one year, and**
- B. Authorize the City Manager to renew the contract for up to four, one-year renewal terms with possible price adjustments and to amend the contract consistent with the purpose for which the contract was approved.**

**Staff Resource(s):**

Liz Babson, Transportation  
Bryan Tarlton, Transportation

**Explanation**

- The Charlotte Department of Transportation maintains over 800 traffic signals, which include intersection signals, fire emergency signals, school flashers, and pedestrian hybrid beacons. The City’s traffic signals require a large inventory of parts to be available for repairs and replacement.
- Traffic signal components must be compatible for fast repair times, especially during emergency situations.
- On December 12, 2018, the City issued an Invitation to Bid; three bids were received.
- Mobotrex Inc. was selected as the lowest responsive, responsible bidder.
- Annual expenditures are estimated to be \$400,000.

**Charlotte Business INclusion**

No subcontracting goal was established because there are no subcontracting opportunities (Part C: Section 2.1 (a) of the Charlotte Business INclusion Policy).

**Fiscal Note**

Funding: Transportation Operating Budget
