Explanation

- City vehicles and equipment are assessed on an annual basis to determine replacement needs based on a rating of vehicle usage, age, maintenance costs, and condition.
- Vehicles and equipment being purchased include but are not limited to light-duty hybrid SUVs and electric sedans, heavy-duty cab and chassis, street maintenance equipment, sewer cleaning equipment, mini excavators, skid steers, utility vehicles, forklifts, and heavy-duty construction equipment.
- NC General Statute Section 143-129(e)(3) allows local governments to purchase from formally organized cooperative purchasing contracts.

- A cooperative purchasing agreement results from the consolidation and competitive solicitation of multiple public agency requirements. By aggregating common needs all agencies are able to leverage economies of scale, such as volume discounts, improved terms and conditions, reduced administrative costs, and access to professional and technical expertise.
- Annual expenditures are estimated to be \$4,734,000.

Charlotte Business INClusion

These are cooperative purchasing contracts and are exempt (Part A: Appendix 27 of the Charlotte Business INClusion Policy).
