### Aluminum Sheeting and Signposts

#### **Action:**

- A. Approve a unit price contract with Vulcan, Inc. for the purchase of Aluminum Sheeting and Signposts for a term of three years, and**
- B. Authorize the City Manager to renew the contract for up to two, one-year terms with possible price adjustments and to amend the contracts consistent with the purpose for which the contract was approved.**

#### **Staff Resource(s):**

Debbie Smith, Transportation  
David Smith, Transportation

#### **Explanation**

- The Charlotte Department of Transportation (CDOT) uses aluminum sheeting for the fabrication of traffic signs, such as speed limit signs and stop signs.
- In many cases, these signs are mounted on metal signposts.
- The main purpose of traffic control signs are to provide information to road users so that they can safely and efficiently move along the highway, street, pedestrian facility, or bikeway.
- On May 22, 2023, the city issued an Invitation to Bid; four bids were received.
- Vulcan, Inc. was selected as the lowest responsive, responsible bidder.
- Price adjustments may be considered based on legitimate and justified increases in the cost of doing business.
- Annual expenditures are estimated to be \$504,500.

#### **Charlotte Business INClusion**

Per Charlotte Business INClusion Policy: Part B: Section 2.3, The city shall not establish Subcontracting Goals for Contracts where: (a) there are not subcontracting opportunities for the Contract; or (b) there are no MWSBEs certified to perform the scope of work that the city regards as realistic opportunities for subcontracting.

This contract meets the provision of (a) - No subcontracting opportunities.
