Explanation

- Charlotte Water maintains approximately 4,300 miles of water distribution lines and approximately 279,000 active water service connections.
- The Water Replacement Program provides for replacement of water distribution infrastructure as needed. The primary function is to replace water lines to improve water quality and flow requirements throughout the distribution system.
- During Fiscal Year 2017, approximately 22,700 feet of water main was installed to replace failing or obsolete water mains.
- Bids received are unit price based for estimated quantities of items needed for this type of work.
- On January 5, 2018, Charlotte Water issued an Invitation to Bid; three bids were received from interested service providers.
- Dallas 1 Construction LLC was selected as the lowest responsive, responsible bidder.
