Sole Source Exemption

- G.S. 143-129 (e)(6) provides that formal bidding requirements do not apply when:
 - Performance or price competition are not available,
 - A needed product is available from only one source or supply, or
 - Standardization or compatibility is the overriding consideration.
- Sole sourcing is necessary for this contract because the requested product is essential in maintaining standardization, and the use of another product would require considerable time and money to implement and evaluate.
- The City Council must approve purchases made under the sole source exception.

Explanation

- Spectrolab searchlights have been operational on CMPD helicopters for 10 years and are in need of replacement to comply with the most current aviation technology.
- CMPD has recently upgraded its two helicopters with the most recent model of Aerocomputers, which work seamlessly with the Spectrolab searchlights to operate as one coordinated system.
- Spectrolab searchlights are the only one of its kind designed specifically to operate with

Aerocomputers.

- Together, the system works to reduce flight crew fatigue, increase operational capabilities, and reduce the requirement of multiple controllers in the aircraft.
- Expenditures under the contract are estimated to be \$176,000.

Charlotte Business INclusion

This is a sole source contract and is exempt (Part A: Appendix 1.27 of the Charlotte Business INclusion Policy).
