Explanation

- Fire Station 27, at 111 Ken Hoffman Drive in Council District 4, will be expanded by 525 square feet to add a women's locker room. The work also includes renovation of the existing men's locker/shower room and modifications to the plumbing and HVAC systems.
- The City has been making improvements to fire stations, including the fitness rooms, and adding women's locker rooms since the mid-1990s.
- Firefighters are on duty for 24-hour shifts and the department requires they maintain a level of physical fitness. Gym facilities allow firefighters to maintain the fitness level necessary to pass physical standards and be fit for duty.
- The current standard for fire stations is to include locker rooms for men and women, fitness rooms, sleeping quarters for eight to 10 firefighters, kitchens, and a living room area.
- On May 10, 2018, the City issued an Invitation to Bid; two bids were received.
- D. E. Brown Construction, Inc. was selected as the lowest responsive, responsible bidder.
- The project is anticipated to be complete by spring of 2019.

Reject Low-Bid Explanation

- Dosan Corp. bid in the amount of \$488,280 was found to be non-responsive as a result of failing to meet the City's Charlotte Business INclusion (CBI) program established subcontracting goal.
