Explanation

- The City contracts with a private security company to provide security services for CATS' transit facilities and fleet. These private security services provide additional support to the Charlotte-Mecklenburg Police Department's (CMPD) efforts.
- Contracted private security is a cost-effective solution to ensuring safety and security at CATS' properties for one half of the annual cost of utilizing a sworn CMPD officer.
- A team composed of CATS and CMPD representatives evaluated the contract for award selection and adherence to the terms.
- The contract scope allows for additional future security services to be provided for future transit line expansions and special events.
- The City will retain the right to terminate the contract immediately for default including, among other things, any violation of law.
- On July 13, 2018, the City issued a Request for Proposals (RFP); two proposals were received.
- G4S Secure Solutions USA Inc. best meets the City's needs in terms of qualifications, experience, cost, and responsiveness to RFP requirements that included company experience in a transit environment and staff qualifications.
- The estimated annual expenditures are \$5,890,960, for an estimated total of \$17,672,880 over the three-year term.
- This action will award a new three-year contract, while the preceding item is presented to Council to amend the current contract.
