Staff Resource(s):

Angela Lee, Charlotte Water
Ron Hargrove, Charlotte Water

Sole Source Exemption

- G.S. 143-129(e)(6) provides that formal bidding requirements do not apply when:
 - Performance or price competition are not available;

- A needed product is available from only one source or supply; or
 - Standardization or compatibility is the overriding consideration.
- Sole sourcing is necessary for this contract because standardization and compatibility is the overriding consideration.
- The City Council must approve purchases made under the sole source exception.

Explanation

- Various pumps and process equipment have been installed within Charlotte Water facilities through competitively bid construction projects.
- In order to maintain compatibility during a repair, replacement pumps and parts may only be obtained from assigned representatives or the manufacturer.
- Charlotte Water’s pumps and process equipment need to be repaired and/or replaced in a timely and cost-effective manner in order to meet state and federal permit requirements.
- Total contract expenditures across all 17 contracts are estimated to be \$5,000,000 over five years.

Charlotte Business INClusion

This is a sole source contract and is exempt (Part A: Appendix 1.27 of the Charlotte Business INClusion Policy).

Fiscal Note

Funding: Charlotte Water Operating Budget
