- Collectively, these five organizations employ approximately 37,500 individuals, and all workers' compensation medical services for employees injured on the job are outsourced.
- Workers' compensation medical services may include:
 - Providing medical direction and leadership as a licensed provider in North Carolina;
 - Providing various locations within Mecklenburg County for access to treatment;
 - Providing treatment at various levels and within established timeframes;
 - Providing limited pharmacy benefit management services;
 - Providing referrals as appropriate and necessary;
 - Providing fitness-for-duty evaluations; and
 - Creating policies and protocols for exposure-related claims.
- On April 2, 2019, the city issued a Request for Proposals (RFP); two responses were received.
- Concentra Medical Centers best meets the city's needs in terms of qualifications, experience, cost, and responsiveness to RFP requirements.
- The North Carolina Industrial Commission (NCIC) sets maximum pricing levels for medical treatment under workers' compensation. Concentra Medical Centers offers an 11 percent discount to the maximum pricing established by the NCIC.
