Explanation

- City vehicles and equipment are assessed on an annual basis to determine replacement needs based on a rating of vehicle usage, age, maintenance costs, and condition.
- N.C.G.S. 143-129(e)(3) allows local governments to purchase from formally organized cooperative purchasing contracts.
- A cooperative purchasing agreement results from the consolidation and competitive solicitation of multiple public agency requirements. By aggregating common needs, all agencies are able to leverage economies of scale, such as volume discounts, improved terms and conditions, reduced administrative costs, and access to professional and technical expertise.
- Vehicles and equipment being purchased include light and medium duty pickup trucks, light duty hybrid SUVs, electric sedans, passenger vans, and cargo vans.
- The city may also use these cooperative contracts to purchase police vehicles as a supplement to current city-awarded contracts.
- Total annual expenditures are estimated to be \$2,853,000.

Charlotte Business INclusion

These are cooperative purchasing contracts and are exempt (Part A: Appendix 27 of the Charlotte

Business INClusion Policy).
