Explanation

- This grant will support Charlotte Water's adherence to the Environmental Protection Agency's (EPA) Lead and Copper Rule Revision (Rule) by developing an inventory of water services line materials within the service area.
- The Rule includes investigative research into public and private water services lines to explore if customers may be impacted by lead in drinking water.
- The Rule requires water systems to develop an inventory to identify the materials of service lines connected to the public water distribution system, to be submitted to the State by late 2024 as directed by the EPA.
- Awarded funds will be expended by December 2026.
