Airport Sewer Line Design Services

Action:

Approve a contract in the amount of \$399,400 with STV Engineers, Inc. for sewer design services for the Concourse A and Terminal Lobby Expansion projects.

Staff Resource(s):

Brent Cagle, Aviation
Jack Christine, Aviation

Explanation

- To accommodate future expansion and development at the Airport, Aviation has identified the need to begin preliminary work for constructing a new sanitary sewer system at the Airport.
- This contract includes surveying, geotechnical and utility coordination, traffic control, and sewer design engineering services.
- On April 14, 2014, the City issued a Request for Qualifications (RFQ); 14 proposals were received from interested service providers.
- STV Engineers, Inc. best meets the City's needs on the basis of demonstrated competence and qualification of professional services in response to the RFQ requirements.
- The project is estimated to be complete by the end of 2018.

Charlotte Business INclusion

The City negotiates subcontracting participation after the proposal selection process (Part C: Section 2.1 (h) of the Charlotte Business INclusion Policy).

STV Engineers, Inc. has committed 12.06% (\$48,185) of the total contract amount to the following certified firm:

- Gavel & Dorn Engineering, PLLC (SBE) (\$48,185) (geotechnical and construction material testing)

Fiscal Note

Funding: Aviation Community Investment Plan
