Storm Water Repair and Improvement Contract (Fiscal Year 2018-D)

Action:

Award a contract in the amount of \$3,987,927.13 to the lowest responsive bidder United of Carolinas, Inc. for the Storm Water Repair and Improvement Fiscal Year 2018-D project.

Staff Resource(s):

Mike Davis, Engineering and Property Management
Susan Tolan, Engineering and Property Management

Explanation

- This contract is part of an ongoing program to provide repairs and/or improvements to existing storm drainage systems and the construction of new storm drainage systems.
 - Each request is investigated and prioritized based on the severity of potential public/private property flooding and/or property damage.
 - The necessary repairs for each project are designed and a work order will be prepared.
- Approximately 30 projects may be constructed within a contract term that may not exceed 18 months. The number of projects may vary depending on the nature and extent of the repairs actually constructed.
- On September 11, 2017, the City issued an Invitation to Bid; on October 10, 2017, one bid was received from an interested service provider. Since a minimum of three bidders are required for construction contracts in order to open bids per North Carolina General Statute, the project was re-advertised.
- This project was re-advertised on October 12, 2017; two bids were received from interested service providers. During the re-advertisement, the contract may be awarded to the lowest responsible bidder even if only one bid is received from an interested service provider.
- United of Carolinas, Inc. was selected as the lowest responsive, responsible bidder.

Charlotte Business INclusion
