### Aerial Imagery Services

#### **Action:**

- A. Authorize the City Manager to negotiate and approve a contract with Pictometry International Corp for Aerial Imagery Services for an initial term of three years, and**
- B. Authorize the City Manager to renew the contract for up to three, one-year renewal terms with possible price adjustments and to amend the contract consistent with the purpose for which the contract was approved.**

#### **Staff Resource(s):**

Jeff Stovall, Innovation and Technology

#### **Explanation**

- The City has a need for aerial and oblique imagery data for use in its application, map making and data collection. All City departments use the aerials and obliques in a direct or indirect way.
- Data gathered from aerial imagery may be used to verify streets, addresses, streams, ponds and buildings, as well as assists in the determination of damage to structures after a disaster.
- While other firms provide a similar product, they are not compatible with the necessary viewers and lack the quality required or fail to perform.
- A Waiver of a competitive solicitation process may be granted on a limited basis when deemed appropriate and in the City's best interest. The City Manager has approved a waiver on this item.
- Contract expenditures are estimated to be \$95,000 annually and \$465,000 over the three-year term.

#### **Charlotte Business INClusion**

No subcontracting goal was established because there are no subcontracting opportunities (part C: Section 2.1(a) of the Charlotte Business INClusion Policy).
