Housing Charlotte Framework

Staff Resource(s):

Pamela Wideman, Housing and Neighborhood Services

Time: 20 minutes

Explanation

- The Housing Charlotte Framework focuses on three objectives:
 - Expanding the supply of high-quality rental housing and homeownership opportunities,
 - Preserving the affordability and quality of existing rental housing stock, and
 - Supporting family self-sufficiency.
- The Framework will establish a collaborative effort between the City, Local Initiative Support Corporation (LISC), Foundation For The Carolinas, Leading On Opportunity Council, and other community partners to support the framework's objectives and guide the City's housing investments, policies, and processes.
- On June 13, 2018, the Housing and Neighborhood Development Committee voted unanimously (Mayfield, Driggs, Egleston, Harlow and Newton) to move the Housing Charlotte Framework forward to full Council for consideration.

Future Action

City Council will be asked to consider the Housing Charlotte Framework during the Business Meeting on August 27, 2018.
