Explanation

- The city is responsible for the operations and maintenance of over 200 municipal facilities, structures, and assets with a range of uses, including office, warehouse, storage, parking, vehicle maintenance, communication towers, and public safety.
- These contracts will support maintenance and minor renovation projects across the city's building portfolio. Work may include the design and installation of new or replacement HVAC equipment, heat pumps, and geothermal systems.
- Firms may conduct studies for energy efficient design per the city's Sustainable Facilities Policy.
- On November 5, 2020, the city issued a Request for Qualifications (RFQ); 12 responses were received.
- The companies selected are the best qualified firms to meet the city's needs on the basis of demonstrated competence and qualification of professional services in response to the RFQ requirements.
- Total annual expenditures are estimated to be \$1,200,000.
