Explanation

- Charlotte Water uses a variety of chemicals in the water and wastewater treatment process, and each chemical plays an essential role to ensure the treated water is safe for customers and the environment.
- North Carolina General Statute 143-129.9 indicates the alternative competitive bidding methods for the purchase of apparatus, supplies, materials, or equipment, including a reverse auction as an appropriate form of bidding.
- On January 7, 2021, the city issued an Invitation to Bid; 24 bids were received.
- On March 17, 2021, the city held a reverse auction to obtain pricing. The reverse auction process is a real-time purchasing process in which bidders compete to provide goods at the lowest selling price in an open and interactive environment. By using the reverse auction method, the city was able to gain increased competition and coordinate all the treatment chemical contracts into one contract cycle.
- The companies selected were the lowest responsive, responsible bidders.
- Annual expenditures are estimated to be \$6,700,000.

Charlotte Business Inclusion

Per Charlotte Business Inclusion Policy: Part C: Section 2.1(a), the city shall not establish Subcontracting Goals for Contracts where: (a) there are no subcontracting opportunities identified for the Contract; or (b) there are no MBEs or SBEs certified to perform the scopes of work that the city regards as realistic

opportunities for subcontracting.

These contracts meet the provisions of (a) - No subcontracting opportunities.
